Regional project for the development of the Cultural and Creative Industries (CCI) in the Indianoceanie

BACKGROUND

The Indian Ocean Commission (IOC) is an intergovernmental organisation that brings together five Member States: The Union of the Comoros, France under Reunion, Madagascar, Mauritius and Seychelles. As the only regional organisation in Africa entirely made up of islands, it promotes the specificities of its Member States on the continental and international scenes.

With the active support of a dozen international partners, including the French Development Agency (AFD), the IOC embodies regional solidarity through cooperation projects covering a wide range of sectors: sustainable management of natural environments and resources, public health, maritime safety, culture, etc. This experience accumulated over the course of the projects has now made the IOC a leading player in the regional diplomatic landscape participating in the achievement of the Sustainable Development Goals. For nearly 40 years, the IOC has led the collective action of a region, Indianoceanie, vulnerable by nature and ambitious by choice.

The French Development Agency (AFD) implements the French policy on development and international solidarity. Through its activities of financing the public sector and NGOs, its research (Editions AFD), training on sustainable development (Campus AFD) and awareness-raising work and publications in France, the Agency finances, supports and accelerates the transitions to a fairer and a more resilient world.

www.afd.fr

In February 2022, IOC and AFD signed a financing agreement amounting to EUR 5.1 million over five years for implementing the regional cultural and creative industries (CCI) development project in Indianoceanie. The project beneficiaries include the IOC Member States as well as Mozambique. La Reunion, which is not a direct beneficiary of the project, is part of its project intervention prism.

By targeting cultural actors and creative sectors, the project will also contribute to the revitalisation of CCIs that are likely to act as important levers of socio-economic development, both at the local and regional levels.

Since the adoption of this cultural strategy, the IOC decision-making bodies have reasserted the interest in this sector, encouraging the General Secretariat to seek from development partners the means to implement regional action.

Taking into account the double leverage the cultural sector plays, the IOC General Secretariat, with the AFD support, has set up this regional project which aims to "Build more inclusive human societies through the stimulation of the regional cultural sector" and is divided into 25 activities clustered into 4 components corresponding to the project specific objectives, namely:

1. Strengthening cultural infrastructures to provide territories with adequate spaces and **harnessing a rich and meaningful heritage** for the populations;
2. **Fostering the cultural ecosystem** to create wealth and promote equal access to culture;
3. **Building the skills** of cultural actors through quality training that can permeate the cultural ecosystem
4. **Supporting the sector governance** in order to ensure a favourable framework for developing CCIs and to improve the employment quality.

This project, classified as DAC2 in the OECD criteria, contributes to valuing diversity and will seek to reduce gender inequalities based on gender stereotypes and socio-economic imbalances between women and men.

Therefore, all project interventions must include **specific attention to gender issues** in order to ensure that this project contributes to strengthening gender equality.

Also, in order to ensure that this project contributes to strengthening gender equality, a gender sectoral diagnosis was conducted from October to December 2022. This diagnosis made it possible to develop a gender action plan (GAP) around three priority objectives:

1. Strengthening women's representation and inclusion in CCIs
2. Addressing Gender-Based Violence (GBV) in CCIs
3. Promoting women's economic empowerment in CCIs

1. OBJECTIVES OF GRANT PROGRAMMES

To promote the development of cultural and creative industries, the IOC through its ICC project, is setting up different grants open to existing operators and initiatives in the region.

The ICC project aims to support inter-island exchanges and collaborations but also to promote access to regional markets, while strengthening the ICC value chain. Priority will be given to projects that have an impact on equality by promoting the full participation and inclusion of women.

Within the framework of the ICC project and in accordance with its specific objective 2 "*Fostering the cultural ecosystem to create wealth and promote equal access to culture*", the project implements the following activity 2.1: "Creation of a Regional co-Creation investment fund in the Indian Ocean" and is launching a call for applications (CFA) for the "**Indianoceania co-creation Fund**" grant

The present grant's objectives are:

1. **Foster inter-island artistic and creative collaboration** to produce works that reflect the region's cultural diversity;
2. **Broaden the prospects offered to artists and cultural operators** by stimulating and strengthening partnerships in the Indian Ocean and Africa;
3. **Develop the artistic and creative offer** by encouraging the implementation of co-production agreements and professionalising regional creation and production.

As the ICC project aims for structural change for gender equality in culture, priority will be given to projects that have an impact on equality by promoting the full participation and inclusion of women.

2. AMOUNT OF THE FINANCIAL PACKAGE GRANTED BY THE CONTRACTING AUTHORITY

The indicative total amount made available under this call for application is **one hundred twenty thousand euros (EUR 120,000)**. The contracting authority reserves itself the right not to allocate all the funds available.

Any attempt by an applicant to obtain confidential information, to enter into unlawful agreements with its competitors or to influence the evaluation committee or the contracting administration during the procedure for examining, clarifying, evaluating and comparing applications will result in the rejection of their application and will be subject to administrative sanctions in accordance with the financial regulations in force.

b) Respect for human rights, environmental legislation and core labour standards

The applicants and their staff must comply with human rights. In particular, and in accordance with applicable law, applicants who have been awarded a grant must comply with environmental legislation, including multilateral environmental agreements, as well as applicable core labour standards, as defined in relevant International Labour Organisation conventions (such as conventions on freedom of association and collective bargaining, on the elimination of forced or bounded labour and on the abolition of child labour).

For the purposes of this provision, "corrupt practice" means any offer of unlawful payment, present, gratuity to any person as an inducement or reward for performing or refraining from performing acts relating to the award of a grant or the performance of a contract already entered into with the Contracting Authority.

d) Extraordinary commercial expenses

Any application shall be rejected or any contract terminated if it is found that the award of the grant or the performance of the contract has given rise to extraordinary commercial expenses. e) Breach of obligations, irregularities or fraud

The Contracting Authority reserves the right to suspend or cancel the procedure where it is found that the award procedure has been vitiated by a breach of obligations, irregularities or fraud. Where a breach of obligations, irregularities or fraud is discovered after the grant has been awarded, the Contracting Authority may refrain from concluding the contract.
